

18TH SPRING RALLYE FOR CLASSIC AND HISTORIC ALFA ROMEO
MAY 25 – 28, 2007
IN KREMS ON DANUBE, AUSTRIA

Dear Alfisti, dear friends,

The Wachau – countryside to fall in love with, to linger in, to enjoy

Come to the Wachau and be carried away again, in a natural setting that is simply indescribable. The murmur of the Danube as it flows along its way, the apricot orchards blooming pink-white or shimmering orange as the seasons change, the ancient terraced slopes replete with grapevines, and the charming old vintners' villages and small Medieval towns. . .

Discover the Wachau, part of the world's cultural heritage and one of Europe's most beautiful rural areas. Pass through historic markets and romantic wine tavern locations, and experience new routes off the familiar paths, into the mystical Waldviertel, along the romantic Kamptal or in the traces of the Romans in the Dunkelsteiner Forest. Stop and relax in one of the cordial taverns.

The 2007 Wachau Alfa Classic is a tourist rallye at prescribed average speeds in three stages and with eight special tests. Krems is the start and the finish. The time checkpoints and stage finishes begin in the target time using an easily understandable road book and an on-board card. The prescribed speed is less than 50 km/h. The entire route amounts to approx. 360 km, 90% of it on asphalt roads, which are kilometre-calibrated to precisely 10 metres with Tripmaster.

The competitors are under obligation to comply with the STVO Roadway Traffic Ordinance.

The overall victors and winners of the cup in the last years:

- 2000 Dott. Sergio Fizzotti / Sandro Fizzotti, Giulietta Spider, 1960, Bolzano
- 2001 Rudi Schraml / Mag. Ingrid Schraml, 1750 Spider Veloce 1969, Vienna

Start and driving times

The start and finish is in Krems Stein on both days of the event.

On-board card

All competitors receive an on-board card at the start; it contains a list of the driving times and the sections of the sub-stages. Competitors must present their cards at the checkpoints for registration and surrender them at the end of the rally at the finish.

Checks

Checkpoints have been set up over the entire route. They include time checks, concealed time checks, pass checks and concealed pass checks.

Checks for prescribed average speeds

These checks are positioned at every stage in the form of special checks along public roadways or as a slalom on blocked areas or circular routes. The competitors are given a prescribed average speed and target times.

Valuation

Valuation is open for all Alfa Romeo vehicles.

Overall and class valuation is derived according to the number of lowest total points. The elder vehicle counts if the total points are equal. The smaller cubic capacity, the chassis number or the driver's age counts if the year of manufacture is the same.

Valuation without technical aids: for competitors navigating using a speedometer and mechanical stopwatch only

Valuation with technical aids: as above but with an added factor of 2.5.

Overall valuation

Overall valuation of all competitors in Classes 1 through 6 who have started on both rally days and have reached the finish in the valuation. Overall and class valuation is derived according to the number of lowest total points.

Class valuation

All Alfa Romeo vehicles are eligible to enter, without restriction to year of manufacture.

The following classes will be valued:

Class 1: up to 1945, Class 2: up to 1960, Class 3: up to 1965, Class 4: up to 1972, Class 5: up to 1982, Class 6: Ladies Cup, Class 7: Guests and modern Alfa Romeos, Special valuation: Trofeo Giulietta Sprint Speciale

Club Sportivo valuation: without special tests

Apart from the overall valuation, there is a Trofeo Club Sportivo for competitors who want to join the event without rally stress, in which they take the special tests without valuation. As usual, the start is according to year of manufacture and with starting numbers – only the stage times should be punctually maintained.
